IMAGINARY FRIEND

a giant soft toy

CIA. VENDAVAL · EASY READ

1–2 ARTISTS	30 MINUTES	STREET OR INDOORS	ALL AGES

Imaginary Friend is a giant soft toy. The soft toy walks through the street. It looks for friends to play with.

What it looks like

The soft toy is very tall. It walks on 4 legs. Inside there is a person on stilts. Stilts are long poles on the legs.

3 ways to do the show

1. **With acrobatics**: an acrobat wants to sleep. First they stretch, jump and dance with the audience. At the end they sleep on top of the soft toy.
2. **With music**: a musician plays a wind instrument.
3. **The soft toy alone**: the soft toy plays with the audience.

What we need

- A street, a square or a park.
- Indoors, the ceiling must be 4 metres high or more.
- A place to change, with water.
- No technicians needed.
- If it rains, we do the show later or indoors.
